## Family Introduction

██████████ and ██████████ live in a beautiful home and have been hosting with us for over four years! They love to meet our new students and welcome them to their home as a member of the family. They enjoy walking, keeping fit, eating healthy and entertaining friends and family. They regularly attend music concerts and enjoy watching sports on television and listening to music. ██████████ and ██████████ are also Oxbridge Guardians Regional Managers, so they are very involved and interested in the academic achievement of our students. Their daughter ██████████ is currently at university, but previously studied at an independent school, so they have a great understanding of the UK Education system.
